The General Agricultural (A1) Zone applies to the majority of lands designated ‘Agricultural’ in the Municipality by the West Elgin Official Plan. It includes productive agricultural land under active cultivation as well as non-active farmland, pasture land, woodlands, ravine land, wetlands and other natural areas despite the fact they may not be used or capable of being used for agricultural purposes. Permitted uses in the A1 zone include a broad range of agricultural activities from the cultivation of land and production of crops to the breeding, raising and care of livestock. Other uses such as forestry, riding schools, dog kennels and wildlife preserves are also permitted in recognition that such uses are appropriately located in the rural area and are complementary or not in conflict with agricultural uses. The production of oil and natural gas is also permitted. Lands zoned A1 are typically large parcels greater than 2 ha (5 acres) in size. Where new agricultural parcels are proposed to be created, the minimum lot area requirement for each parcel is 40 hectares (100 acres) as stipulated generally by the West Elgin Official Plan. Livestock buildings and structures and additions thereto as well as manure storage facilities are required to comply with Minimum Distance Separation (MDS) Formulae as established by the Province and implemented under the guidelines established by the Province, as amended from time-to-time.
